Intellectual Property (IP)

The management of intellectual property (IP) and intellectual property regulations are seen as key to innovation and competitiveness. The "rules for participation and dissemination" for › Horizon Europe (2021-2027) (https://eur-lex.europa.eu/legal-content/EN/ALL/?uri=CELEX:32021R0695) and › Horizon 2020 (2014-2020) (https://eur-lex.europa.eu/legal-content/EN/TXT/?qid=1445879909465&uri=CELEX:32013R1290) describe basic rules for the use and dissemination of intellectual property generated in projects.

Dealing with IP in different projekt phases

Horizon Europe (2021-2027)

The exploitation and dissemination of project results is of increased importance in Horizon Europe, both in the application and implementation phase and in reporting. A brief description is provided in the project application, while a complete "plan for the exploitation and dissemination of the results" must be submitted 6 months after the start of the project.

Use must also be shown at the end of the project (for example by means of a questionnaire on progress, obstacles, etc.).

If the project results have not yet been used one year after the end of the project, they must be published on the **Horizon Results Platform** (https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/horizon-results-platform) in order to find those interested in using them.

Horizon 2020 (2014-2020)

- During the project period: How to Manage IP in Horizon 2020: Project Implementation and Conclusion
