

Aerospace Research: International Information Days and Brokerage Event

Field: Aerospace

Dates: 14-15 November 2018

Location: Berlin

Organizer: DLR and COSMOS 2000

The German Aerospace Center (DLR) and the EU-funded network project COSMOS 2020 are the organizers of the International Information Day for the Call for space research under Horizon 2020.

The event will take place on 14 and 15 November 2018 in Berlin-Adlershof, providing first-hand information on the sixth space bi in Horizon 2020, as well as key recommendations and tips for a competitive applications. Match-making sessions provide the opportunity to expand your network and to explore future collaborations. In pitch sessions, you may present your project ideas.
