

BioCon Valley Get-Together

Field: Health

Date: 15 October 2018

Location: Rostock

Organizer: BioCon Valley

77th BioCon Valley meeting: Promotion of research and SMEs - support from federal, state and EU level: building a bridge between science and industry with collaborative research

If an idea is to become a product, funding programmes can be the key to success. But what opportunities exist at national, federal and European level for the health industry? What are their legal bases? When and how do you apply?

Answers to these questions will be given at the 77th BioCon Valley Meeting, organized in cooperation with the Enterprise Europe Network Mecklenburg-Vorpommern. There will be two experts from the National Contact Points for the respective EU Horizon 2020 programme as well as other representatives of the federal and state authorities and a first overview of programmes such as the Verbundforschungsförderung Mecklenburg-Vorpommern, the Zentrale Innovationsprogramm Mittelstand (ZIM) and the topic-specific programmes under Horizon 2020 will be introduced. Subsequently, specific questions are answered at the respective theme tables.

Please register for this event and tell us your focus topics in the registration form's "Comments" field as well as whether you are interested in an individual consultation on one of the funding programmes.
