

## **Conference "Europe's Transformation: Where People Matter"**

**Field: Societal Challenges**

**Dates: 14-15 November 2018**

**Location: Vienna, Austria**

**Organizer: Initiative "Growth in Transition"**

The conference sheds light on the transition towards a resilient and sustainable society. Conference topics range from social and distributional aspects of a fair society to the role of the financial sector, which enables a transformation of sustainability. Particular attention is paid to the sustainable use of natural resources and the mitigation of climate change. The role of the media is examined in the face of the challenge of a sustainable transformation of society. The digital revolution has already changed the world in which we live. The conference raises the question of whether there is a chance to shape a sustainable digital economy.

During the two-day event, speakers from politics, science, civil society and the private sector will have their say. Participatory conference formats allow for dialogue.
