

Conference "Personalised Medicine in Action"

Field: Medicine

Dates: 20-21 November 2018

Location: Berlin

Organizer: Consortium for Personalised Medicine

The Conference "Personalised Medicine in Action" is organized by the International Consortium for Personalised Medicine (ICPerMed). The main focus of the event is on best practice examples for the successful implementation of approaches in personalised medicine. In addition, several keynote presentations on different aspects of personalized medicine are offered. ICPerMed consists of approximately 40 European and international partners representing ministries, funding organisations and the EU Commission.
