

Horizon Prizes

In the current Research Framework Programme, the European Commission has launched various types of awards. The "Horizon Prizes" are designed to stimulate innovation in specific research areas. In addition, other prizes are also awarded, e.g. in recognition of special achievements.

The current prizes can be found on the › Horizon Prizes call pages (https://ec.europa.eu/info/research-and-innovation/funding/funding-opportunities/prizes/horizon-prizes_en) of the EU Commission.
