

General Information

Calls / topics can be tendered with a fixed deadline or a continuous submission (cut-offs). There are one-stage and two-stage application procedures.

Please note the deadline of your individual call!

The **project application** is submitted electronically in the Funding & Tender Opportunities Portal. Use the portal in good time! Shortly before the application deadline, delays due to numerous hits are to be expected.

Important documents:

- ▶ Work Programme: „Reference Documents“ -> Work programme & call documents -> 2021-2022 -> HE Main Work Programme 2021-2022
- ▶ Standard Proposal Template: Standard Application Form RIA/ IA; Standard Application Form CSA
- ▶ Annotated Model Grant Agreement (pre-draft)
- ▶ Evaluation: Evaluation Form RIA/ IA, Evaluation Form CSA

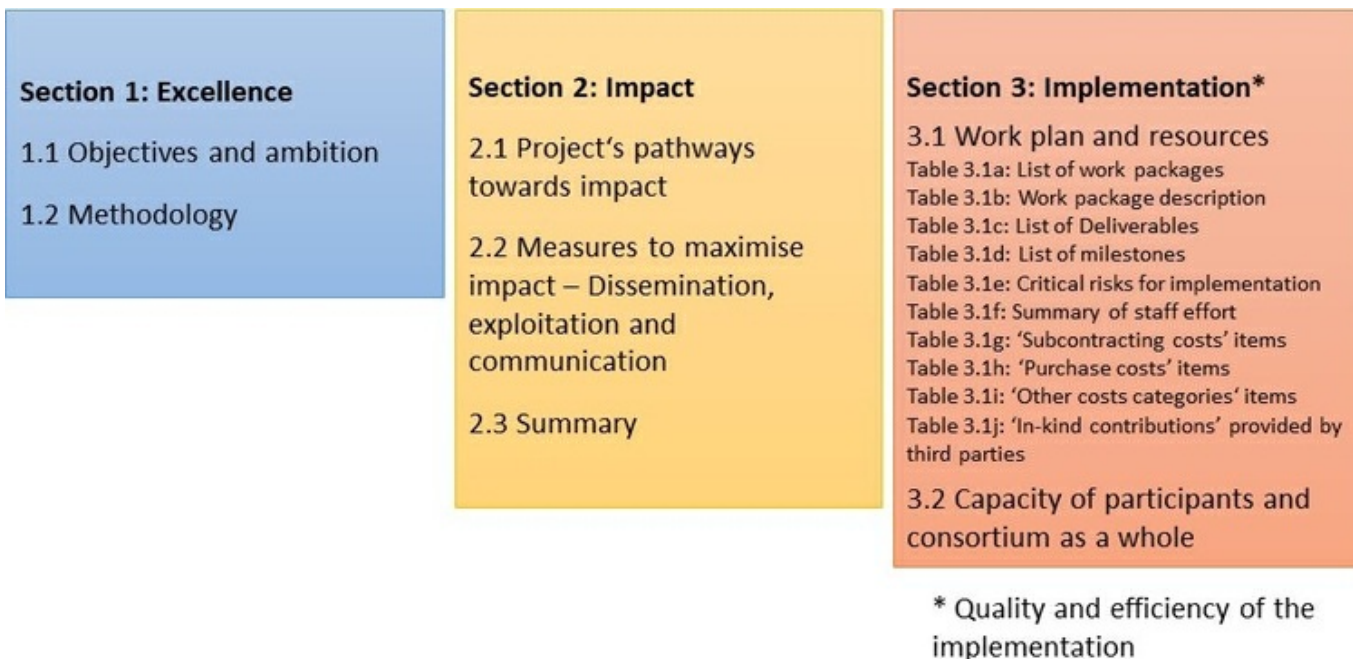

Note the three basic evaluation criteria for project proposals in Horizon Europe:

- ▶ Excellence
- ▶ Impact
- ▶ Quality and efficiency of implementation

Electronic Application

- ▶ Identify call/ topic in the respective **work programme**: „Reference Documents“ -> Work programme & call documents -> 2021-2022 -> HE Main Work Programme 2021-2022
- ▶ Search for calls in the **Funding and Tender Opportunities Portal**
- ▶ Selection of the **SubCall**: The topic description is displayed as well as the call documents and access to the Funding and Tender Opportunities Portal for this particular topic.

Project Proposal "Part B"

The B part of the project application is divided into the following sections:

Section 1: Scientific and technological **excellence**

Section 2: **Impact**

Section 3: **Implementation**

> Standard Application Form (HE RIA, IA (https://ec.europa.eu/info/funding-tenders/opportunities/docs/2021-2027/horizon/temp-form/af/af_he-ria-ia_en.pdf)), p. 32ff.

Ethics Review

As in the previous EU Research Framework Programmes, compliance with ethical principles is also of central importance for research projects in Horizon Europe.

It is ensured by the **Ethics Appraisal Procedure** (> Horizon Europe Programme Guide (https://ec.europa.eu/info/funding-tenders/opportunities/docs/2021-2027/horizon/guidance/programme-guide_horizon_en.pdf), p. 22ff.), which consists of the following steps:

1. **Ethics self-assessment:**
The applicant must complete the "Ethical Issues Table".
2. **Ethics Pre-screening/Screening:**
This is done during the evaluation of the proposal by a panel of experts on the basis of the information provided in the proposal.
3. **Ethics Assessment:**
If ethically relevant points become clear in the screening, a more detailed analysis is carried out by an expert panel. An Ethics Assessment is always carried out if human embryonic stem cells (hESCs) or human Embryoes (hE) are the subject of research in the planned project.
4. **Ethics Check/Review/Audit:**
This takes place during the implementation of the project on the basis of the deliverables and within the framework of discussions. Applies to research activities that have already been classified as ethically relevant in the Ethics Assessment.

The results of the Ethics Review may be included as conditions in the contractual agreements. If ethical criteria are seriously disregarded, an application can be rejected or the funding of an ongoing project can be discontinued.

Please find further information in "> How to complete your ethics self-assessment (https://ec.europa.eu/info/funding-tenders/opportunities/docs/2021-2027/common/guidance/how-to-complete-your-ethics-self-assessment_en.pdf)".
