

Brokerage Events Horizont 2020

Brokerage Events (synonym auch: Matching Events/Partnering Events) sind Veranstaltungen, bei denen die Suche nach Projektpartnern aus der Industrie oder Hochschule für ein Konsortium im Vordergrund steht. Brokerage Events werden meist sektor-, themen- oder ausschreibungsspezifisch organisiert und mit Konferenzen oder Informationsveranstaltungen gekoppelt. Veranstalter sind die EU-Kommission selbst oder Interessengruppen in Brüssel wie z.B. ERRIN (das European Regions Research and Innovation Network). Ein häufiges Format ist, dass Ausschreibungen von einem Mitarbeiter der EU-Kommission erläutert und anschließend initiale Konsortien vorgestellt werden, die noch Partner/bestimmte Expertise suchen.

Es besteht im Rahmen von Brokerage Events also die Möglichkeit, Kontakte quer durch Europa zu knüpfen und die eigene Expertise und eigenes Interesse an EU-Forschung deutlich zu machen (Einstieg). Besonders geht es aber darum, entweder als Koordinator eine eigene Projektskizze vorzustellen und geeignete Partner zu akquirieren oder sich selber als Partner anzubieten.

Wenn Sie weitere Informationen zu den Events wünschen, wenden Sie sich an die Ansprechpersonen (http://www.euhochschulnetz-sachsen-anhalt.de/%C3%9Cber+uns/Ansprechpartner__innen-p-16.html) der jeweiligen Hochschulen.

Folgende Brokerage Events werden aktuell angeboten:

Dialogue Event "Research on Migration and Integration"

Field: Society

Date: 9 May 2019

Location: Bonn

Organizer: National Contact Point Society

Which research projects on migration and integration exist at European level? How can the dialogue between science and society and the transfer of research results in this area be supported in a more targeted manner? In order to answer these questions, the National Contact Point on behalf of the Federal Ministry of Education and Research (BMBF) organizes the dialogue event "Research on Migration and Integration from Science to Society" on 9 May 2019 in Bonn. The aim of the event is to present current research projects in the field of migration and integration and to foster dialogue with potential practitioners and users of project results from politics, administration, business and civil society. The focus is on EU projects with German partners, which are funded under the EU Research Framework Programme Horizon 2020, but also on BMBF-funded projects on "Migration and Societal Change" as well as projects from the funding focus "Flight and Migration" of the Ministry for Culture and Science NRW. Registration for the event is possible until 26 April 2019.

Conference "Cities as Germ Cells of the Energy Transition in Europe"

Field: Energy

Date: 22 May 2019

Location: Berlin

Organizer: National Contact Point Energy

Cities and municipalities are the cornerstones of the energy transition. The realization of European energy and climate goals

depends on the development of municipal potentials. Therefore, it is the stated goal at European level to raise this potential. With its Framework Programme for Research and Innovation Horizon 2020, the European Commission is actively promoting innovative solutions for implementing the energy transition.

In brief keynote speeches, representatives of the German Federal Ministry for Economic Affairs and Energy (BMWi) and the European Commission will give an insight into the European energy strategy and funding opportunities under Horizon 2020 with view to the successor programme under the working title Horizon Europe. Experienced applicants from the municipal sector report on their experiences with EU projects.

As part of an interactive panel discussion, you can address your questions directly to expert representatives from politics, science and industry and discuss successful European project funding with successful applicants. Let us convince you of the advantages of promoting Horizon 2020 in the municipal sector and visit us at the Berlin Energy Days.

Conference "Diverse Securities"

Field: Safe Societies

Dates: 27-28 June 2019

Location: Berlin

Organizer: Fachdialog Sicherheitsforschung

Security perceptions are just as diverse today as the actors, measures and technologies for producing and maintaining security. This year's Security Dialogue conference addresses the complexity and contradictions of security in today's society. It will take place on 27 and 28 June 2019 in the Harnack-Haus in Berlin-Dahlem under the title "Diverse Securities - Social Dimensions of Security Research". The event picks up on future-oriented issues related to civil security and makes references to the framework programme of the German Federal Government. The expert public in the field of civil security research is invited.

The conference will focus on three areas: The first session "Designing and Controlling Diversified Securities" will address, among other topics, the importance of federal structures and the advancing digitization. The second session, entitled "Structures of Vulnerability," deals with specific security-related phenomena and spaces, such as station districts and urban neighborhoods. The third session "Forces: Challenges, Resources, Reflections" is dedicated to emergency services as well as authorities and organizations with security tasks, taking a new look at their relationship to the population.
