

Experts Wanted for Advisory Groups!

Become an evaluator!

"To once experience to be in the role of an expert evaluator proves to be of immense value and to be enormously instructive for future applications." (Source: BMBF - German Federal Ministry of Education and Research)

Support the EU Commission as an expert evaluator to assist with the implementation, evaluation and monitoring of Horizon Europe and other funding programmes!

As an evaluator, you assess project proposals, but can also be involved in the strategic development of EU research policy.

1) Horizon Europe and further EU funding

1. First create an EU login account (<https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/work-as-an-expert>) by clicking on "Register" on the Funding and Tender Opportunities portal at the top right

--> You also need the EU login account for project applications and administration. Please avoid multiple registrations!

2. Register now as an expert for your field under "Register as Expert" (<https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/work-as-an-expert>)

--> Here information is among others in the areas of expertise, university education, foreign language skills and publications. The more complete the profile, the more likely it is to be selected as an assessor.

3. The EU Commission selects experts for calls and specific topics from the pool of experts and usually written by email.

--> Within the profile, you can also choose which funding lines you would like to work for - possibly beyond Horizon Europe.

> "Working as an Expert" - Participant Portal Online Manual (https://ec.europa.eu/research/participants/docs/h2020-funding-guide/index_en.htm)

> Information BMBF (<http://www.horizont2020.de/antrag-begutachtung.htm>)

2) Projects with national and transnational cooperations

Call management of transnational projects is handled via the EVAL-INCO 2.0 database. Experts from the EVAL-INCO 2.0 database support the scientific assessment of project outlines in the area of national or transnational tenders (e.g. ERA-NETs or ERA COFUND).

More information and the possibility to register can be found > here (<https://secure.pt-dlr.de/evalinco/>).
