

Seminar "Climate Policy and Forest Economy"

Field: Bioeconomy and Biotechnology

Date: 4 December 2018

Location: Brussels, Belgium

Organizer: European Forest Institute

The European Forest Institute organizes a seminar on "Climate Policy and Forest Bioeconomy" in Brussels on 4 December 2018. The event aims to provide a better understanding of the science strategy for achieving the objectives of the Paris Climate Agreement. The focus is on:

- The question of the relationship between climate goals and policies and the future development of the bioeconomy
- Supportive effects of the forest bioeconomy to achieve the Paris climate targets
- Effects of substituting fossil based products with wood based products
