

Networking Event "Medical Data Valorisation and Sustainability"

Field: Innovative Medicine

Date: 14 December 2018

Location: Dudelange, Luxemburg

Organizer: IMI2 - Innovative Medicines Initiative

On 14 December 2018, a conference on "Medical data valorisation and sustainability" will take place in Dudelange (Luxembourg). Invited to this networking event on current and future topics of the Innovative Medicines Initiative are stakeholders in health care and development such as hospitals, colleges, research infrastructures and biotech and pharmaceutical companies. There is an option of arranging bilateral meetings with other registered participants.

Registration is open until 13 November 2018. An expert from the National Contact Center for Life Sciences will be present at the event.
