

FCH 2 JU Stakeholder Forum und Programme Review Days 2018

Field: Fuel Cells and Hydrogen JU

Dates: 14-16 November 2018

Location: Brussels, Belgium

Organizer: JU Fuels, Cells and Hydrogen

Registration for this year's Stakeholder Forum and the Technology Initiative for Fuel Cells and Hydrogen Programme Days are open.

The Programme Review Days will focus on projects funded by FCH JU and their recent achievements. Participants have the opportunity to interact with project coordinators and attend a poster exhibition.

This year, the program will also feature the FCH JU Awards for the Best Hydrogen and Fuel Cell Success Story, to be held on Thursday, 15 November 2018 at the Autoworld Museum.

The Stakeholder Forum will bring together representatives from EU institutions, industry and research and other energy and climate stakeholders on the following topics:

Session I - The Road to Consumers - will look at the strategic development of hydrogen infrastructure in Europe

Session II - Cooperation: Sectoral Integration - will highlight the importance of sectoral integration through cooperation with other actors

Session III - European Hydrogen Economy in a Global Context discusses the latest international developments and fuel cells and hydrogen as areas of economic growth and job creation.
