

Plant Based Summit

Field: Biotechnology

Dates: 22-24 May 2019

Location: Lyon, France

Organizer: Chimie Vegetal, Infopro, IAR

The Plant Based Summit, The Biobased Solutions International conference and business meetings will take place on 22-24 May 2019 at the Cité de Congrès, in Lyon (France).

2019 FOCUS: The Markets of Biobased Solutions

The focus of the 2019 conference is to stimulate biobased products development through a market driven approach. The conference program intends to demonstrate how a higher uptake of biobased solutions in everyday-life products will benefit to consumers and meet their expectations. Your application should therefore highlight the added value and benefits that your products and services bring to the value chain and in particular to the consumers.

In 2019, the following key biobased markets will be particularly emphasized:

- Home care, detergence
- Personal care, cosmetics
- Leisure (toys, sport equipment, gardening)
- Paints, coatings, inks and solvents
- Construction (insulation,)
- Plastics and materials

- Automotive, boats, railways, aviation
- Decorative furnishing
- Packaging
- Water treatment
- Fashion, textile
- Solvents
- Lubricants

Submit your papers until November 21!

Contributions will be selected based on excellence and their effort to benefit consumers as well. Around 60 presentations will be selected from the Call for papers by the advisory board to join more than 100 high level speakers!
