### Aims

The network provides information, consulting, and project management services to support researchers in raising funds from the European Union and in executing EU research and innovation projects.

Target groups are researchers and research administrators of the network's universities and applied universities who

- intend to participate in the European Union's framework programmes for research and innovation (e.g. Horizon 2020),
- prepare proposals as coordinator or project partner,
- have gained funding and seek support for project management,
- have principle questions concerning EU research affairs and EU research funding.

### Tasks

- We are
- communicating information about EU research funding through consulting, internet, and information events,
  - supporting project planning and project implementation,
  - providing support in proposal writing,
  - offering project management,
  - informing the universities' boards and administrations with respect to EU research funding,
  - coordinating joint activities and cooperating with other support structures.
