

Reforming and Enhancing the European R&I System

The activities in the programme area **Reforming and Strengthening the European R&I System** intend to strengthen and further expand the research and innovation performance of the European Research Area and to promote cooperation between states.

This is to be done in 14 areas:

1. strengthen the evidence base for research and innovation policy;
2. Foresight activities - anticipating new needs and trends;
3. support policy makers;
4. support the transition to open science;
5. support national reforms in research and innovation;
6. offer researchers an attractive career environment, promote their skills and competencies and support the modernization of universities;
7. Support citizen science and scientific education, involve citizens more and communicate with them;
8. support and monitor gender equality;
9. ethics and integrity in research and innovation;
10. international cooperation;
11. make a scientific contribution to other policy areas;
12. support the implementation of Horizon Europe;
13. support the National Contact Points;
14. support the dissemination and use of results, data and knowledge from Horizon Europe.
