

## Europa Café - online seminar series together with the EEN

### - Europa-Café - How can Saxony-Anhalt's companies and researchers use Europe for their benefit?

In our series of events, we offer thematically varied lectures. The aim of the series is to inform companies and researchers about which topics are being discussed in Europe now and in the future. You can also find out how we can support you in internationalisation and research projects and take an active part in the discussion! Every month, we present a wide range of topics together with experts. The Europa Café is an online seminar series in cooperation with the Enterprise Europe Network (EEN) in German language.
