

Cluster 6: Food, Bioeconomy, Natural Resources, Agriculture and Environment

R&I in the Cluster 6 aims to advance knowledge, build capacities as well as develop and demonstrate innovative solutions that accelerate the transition to: a sustainable and circular management and use of natural resources ensuring ecosystem integrity as well as sustainable development and human well-being, including food and nutrition security, in the EU and globally. R&I activities under this Cluster shall create the following interlinked, long-term impacts:

- ▶ Reduction of greenhouse gas emissions and successful adaptation of ecosystems and production systems as well as rural, coastal and urban areas to climate change
- ▶ Halt of biodiversity decline and restoration of ecosystems
- ▶ Sustainable and circular management and use of natural resources; prevention and removal of pollution; healthy soils and clean water and air for all; attractive jobs, enhanced value creation and competitiveness
- ▶ Establishment of primary production, food and bio-based systems based on sustainability, inclusiveness, health and safety; food and nutrition security for all
- ▶ Behavioural, socio-economic and demographic change are well understood and drive sustainability; a balanced development of vibrant rural, coastal, peri-urban and urban areas
- ▶ Establishment of governance models enabling sustainability
