

Conference on the European Research Area

Field: European Research Area

Date: 14 May 2019

Location: Berlin

Organizer: German Federal Ministry of Education and Research

The Federal Ministry of Education and Research is hosting a national conference on the European Research Area on 14 May 2019 in Berlin. The conference will be opened by Federal Minister Anja Karliczek, who also honors the winners of the new Ralf Dahrendorf Prize for the European Research Area. In the run-up to the elections to the European Parliament, the meaning and achievements of the common European Research Area for the European Union are thus illuminated. At the same time, the event aims to stimulate future development in European research and innovation policy.
