

Consortium Agreement

For multi-partner projects under Horizon 2020 and Horizon Europe, the conclusion of a **Consortium Agreement** is generally mandatory. This agreement regulates the rights and obligations of the project partners among themselves. The content is not controlled by the EU Commission. It is not a contracting party. The provisions of the Grant Agreement remain unaffected by the provisions of the Consortium Agreement.

The Consortium Agreement may regulate the following aspects:

- ▶ liability regulations
- ▶ intellectual property rules (including the background that each partner brings to the project; granting of access and/or use rights; transfer of rights)
- ▶ payment regulations
- ▶ obligations to participate in project meetings
- ▶ dealing with defaulting partners - appointment of scientific/technical/administrative responsible persons
- ▶ tasks and duties of a steering committee and/or advisory board
- ▶ decision-making processes including coordination modalities, forms of communication
- ▶ confidentiality rules

The European Commission has published a guide for the preparation of a consortium agreement: › Guidance: How to Draw up Your Consortium Agreement (http://ec.europa.eu/research/participants/data/ref/h2020/other/gm/h2020-guide-cons-a_en.pdf)

The DESCA Core Group has developed a › Model Consortium Agreement (<http://www.desca-2020.eu/>) for projects under Horizon 2020 which is currently updated for Horizon Europe.

Please contact the EU office responsible for you before concluding a consortium agreement. The local staff will support you in preparing the contract.
